EDUCATION

NED University of Engineering & Technology

Bachelor of Science in Computer Science (BSCS) — CGPA: **3.64 / 4.00**

Present
Karachi, Pakistan

Govt. Delhi College

Higher Secondary School Certificate (HSSC) – Pre-Engineering — Marks: **85%**

2022 – 2024
Karachi, Pakistan

Montessori Complex High School

Secondary School Certificate (SSC) — Marks: **92%**

2020 – 2022
Karachi, Pakistan

PROJECTS

Student Management System | Qt C++

- Designed and implemented a **desktop GUI application** using Qt Framework and C++ for managing student records, enrollment, and academic data
- Supports adding, editing, deleting, and searching student records with a clean and functional interface
- Applied **OOP principles** for modular and maintainable code architecture

Electricity Management System | DSA Project

- Built a **console-based system** utilizing core Data Structures & Algorithms for efficient electricity billing and usage tracking
- Manages consumer records, usage data, and billing calculations with structured data organization
- Demonstrates **practical application of DSA concepts** in a real-world scenario

SKILLS

Languages : C, C++, Python

Tools & Software : Visual Studio Code, Dev C++, Git & GitHub, Microsoft Office Suite (Word, Excel, PowerPoint)

Core Concepts : Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving & Logical Thinking

Graphic Design : Basic to Intermediate skills; experience creating visual content with design tools

ADDITIONAL INFORMATION

- Strong academic record with consistent high performance across all levels of education
- Actively seeking internship opportunities in **Software Development / IT**
- Quick learner with a passion for software development and technology
